SARANSH BATHAM

Salesforce Developer | 6x Salesforce Certified | Apex · LWC · OmniStudio · Data Cloud · Agentforce

Kanpur, India | +91 7880330549 | saranshbatham21@gmail.com | linkedin.com/in/batham | github.com/saransh2107 | saranshbatham.com

PROFESSIONAL SUMMARY

Salesforce Developer with **4+ years** at Infosys building enterprise solutions in **Apex, Lightning Web Components, Flows, OmniStudio and REST/SOAP integrations**, including an **onsite engagement in the United Kingdom** working directly with client stakeholders. Creator of **SF Impact Analyzer**, a published Chrome extension for Salesforce change-impact analysis. Known for performance-optimized, bulk-safe code and declarative-first automation.

TECHNICAL SKILLS

Languages: Apex, SOQL, SOSL, JavaScript (ES6+), HTML5, CSS3, Java, SQL

Salesforce: Lightning Web Components, Aura, Flows, OmniStudio (OmniScripts, FlexCards, DataRaptors, Integration Procedures), Triggers, Batch/Schedulable Apex, Platform Events, Agentforce

Clouds: Sales Cloud, Service Cloud, Experience Cloud, Data Cloud, Marketing Cloud

Integration & Tools: REST & SOAP APIs, MuleSoft, Salesforce CLI, Git/GitHub, Bitbucket, VS Code, Postman, Workbench, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Technology Analyst — Infosys Limited **Aug 2022 – Present**

Salesforce Developer *India & United Kingdom (Onsite)*

- **UK onsite engagement:** worked from the client location in the United Kingdom, running requirement workshops with business stakeholders and turning them into user stories and technical designs.
- Led **customer demos, end-user training and UAT support** onsite, and acted as the bridge between UK stakeholders and the offshore team for smooth, on-time releases.
- Developed Apex classes, triggers, batch and schedulable jobs; refactored code to cut **Apex character usage by 20%** and improve governor-limit headroom.
- Optimized SOQL and **bulkified Apex**, reducing governor-limit exceptions by **25%** and improving platform stability.
- Automated processes with **Flows, Approval Processes and Validation Rules**, reducing manual interventions by **40%**.
- Delivered an **OmniStudio** framework (OmniScripts, DataRaptors, Integration Procedures, FlexCards) that cut manual data entry by **50%**.
- Built **Experience Cloud** portals for external self-service and secured data with Profiles, Permission Sets, Role Hierarchies and Sharing Rules.
- Integrated Salesforce with external systems via **REST and SOAP APIs**; active in Agile ceremonies, code reviews and deployments.

Salesforce Developer Trainee — Dohrinii Technologies **Apr 2022 – Jul 2022**

- Consolidated multiple Nonprofit Success Pack Process Builders into optimized Flows, and built a reusable two-level dynamic **LWC data grid** with search and pagination.

PROJECTS

SF Impact Analyzer — Chrome Extension (published on Chrome Web Store) **JavaScript · Salesforce APIs**

- Built and published a Chrome/Edge extension that shows **everywhere a field, object or Apex class is used** — across Apex, Flows, LWC, Aura, Visualforce, formulas, layouts, reports and validation rules — before it is changed or deleted.
- Rates change risk (**High / Medium / Low**) with reasons, draws an interactive **dependency graph**, and generates test classes to run, an SF CLI deploy command, a Jira/PR summary and CSV export; read-only and runs fully in the browser.

TradeNotes — Installable Web App (PWA) **JavaScript · PWA · Offline-first**

- Offline-first trading journal with a built-in chart-sketch editor, 40+ pattern library and P&L analytics (win rate, R-multiples, equity curve); all data stays on device.

CERTIFICATIONS

Salesforce Certified **Administrator** · **Platform Developer I** · **Agentforce Specialist** · **Data Cloud Consultant** · **AI Associate** · **Marketing Cloud Associate**

EDUCATION & AWARDS

B.Tech, Computer Science & Engineering — Allenhouse Institute of Technology (AKTU), Kanpur **2018 – 2022 | 7.8 CGPA**

- **Infosys Insta Award — "Rise Award of the Month"** for exceeding delivery targets.
